Dear Judge,

I am not always entirely in favor of heavy-handed government influences, but I do believe that Microsoft has gone too far in some of its business practices. I do not think the Proposed Final Judgement goes far enough to sanction a company that has proved itself capable of willfully violating laws and engaging in monopolistic practices. Please look again at the PFJ and give Americans some freedom in the area of operating systems, web browsers, and other software programs. If something is not done to check Microsoft now, it may be too late in the future.

Sincerely,
